Young SIOG
Peer to peer mentorship session

October 25th 2014
Lisbon
new interest group of SIOG – Young SIOG, for young clinicians and investigators active in geriatric oncology.
Young?

• What’s the definition of young?
  – New in the field of GO
  – Trainee in any discipline involved with treatment of older cancer patients
  – Starting specialists in geriatric oncology
  – PhD students, post-doc fellows, researchers, members of SIOG

  – There is no upper age limit
Aims

- to provide a forum for young researchers in geriatric oncology to collaborate, share challenges and concerns, and identify areas of interest
- to help identify topics of interest for future SIOG meetings and educational events, specifically for young members
- to provide exposure of young researchers and young clinicians of different disciplines to SIOG
- to improve active participation of young members of SIOG
- to advocate geriatric oncology outside of SIOG and thereby increase awareness and interest of other young clinicians and researchers in all disciplines that deal with cancer in older patients
To stay connected, start exchanging ideas and discussing specific topics of interest, a Young SIOG LinkedIn Group has been created.

Join the group!
